

Post-Doc or Pre-Doc positions at "Instituto de Microelectrónica de Sevilla (IMSE-CNM, CSIC)", SPAIN

The Neuromorphic Group at IMSE has openings for Post-Doc or Pre-Doc positions to work on the development of CMOS spiking neurons interacting with adaptable memristive synaptic devices.

Candidates should have background on CMOS integrated circuit design. Knowledge of FPGA systems prototyping and computational neuroscience will be positively evaluated.

Interested candidates please contact directly to Teresa Serrano-Gotarredona (terese@imse-cnm.csic.es) with copy to Bernabe Linares-Barranco (bernabe@imse-cnm.csic.es) for further details.
