ComFuturo Programme Call for aids of the Fundación General CSIC First edition

The Fundación General CSIC launches the first edition of its ComFuturo program, a program of public-private collaboration that aims to respond to the unemployment of highly qualified young scientists, attracting the best researcher young talent and enabling to develop projects in Centres and Institutes of the CSIC, with financial support from private entities.

Aimed at young PhD researchers who obtained his doctorate within the last 12 years and in possession of Spanish nationality or permanent residence in Spain.

Research projects must be innovative, with high potential for applicability and transfer to the productive fabric and able to run on a appropriate Centre or Institute of the CSIC.

Contract of employment of up to three years duration for the ComFuturo researcher and a provision for costs associated with the development of the research project.

Admission period: until 15/03/2015 at 23:00h.
